

# DATA ARCHITECTURE

All the data of amazon sales is available on a single table

Name as Amazon sales record

The image shows a screenshot of a data table interface. At the top, there is a header bar with the title "Amazon Sales Record..." followed by a refresh icon and a menu icon. Below the header, the table lists various fields. Some fields are preceded by icons: a calendar icon for dates, a summation symbol (Σ) for aggregated values, and a table icon for the first field. The fields are: Country, Item Type, Month, Order Date, Order ID, Order Priority, Region, Sales Channel, Ship Date, ship time, Total Cost, Total Profit, Total Revenue, Unit Cost, Unit Price, and Units Sold. At the bottom of the table, there is a "Collapse" button with an upward-pointing chevron icon.

Amazon Sales Record...	
	Country
